

Light Up For Life in Celebration of National Donate Life Month in April

Iowa Donor Network invites you to join us in a statewide challenge to Light Up For Life this April in celebration of National Donate Life Month. Iowa Donor Network is partnering with hospitals, businesses, and civic organizations to light their buildings green or green and blue. Become a symbol of hope and help us raise awareness about the need for registered organ, tissue, and eye donors. Illuminating your building in Donate Life colors will show support for the 593 lowans currently waiting for a life-saving organ transplant and inspire more lowans to register as organ, eye, and tissue donors so we can bring the transplant waitlist to zero. Be sure to share pictures of your building all lit up on social media, tag @IowaDonorNetwork #LightUpForLight, and encourage people to register to save lives at IowaDonorNetwork.org. A limited number of green 8.5" x 11" light gels are available at no cost, while supplies last, or green lightbulbs may be purchased at most hardware stores. To request your free light gels, please contact your IDN representative. For more information about Light Up For Life, contact us at contact@iadn.org.
